CBS ArcSafe® Introduces RRS-3 PowIVac Remote Racking Solution for PowIVac PV Style Circuit Breakers

Denton, Texas, March 30, 2015 – [CBS ArcSafe®](#), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces its CBS ArcSafe® RRS-3 PowIVac remote racking solution for PowIVac PV style circuit breakers manufactured by Powell Electrical Manufacturing Company. The RRS-3 PowIVac is compatible with all standard PowIVac PV style circuit breakers with current ratings from 1200-3000A. It is not compatible with breakers equipped with Closed Door Racking or “CDR”. This racking solution allows technicians to remotely rack IN or OUT the PowIVac Type PV standard low-voltage circuit breaker from a safe distance while remaining stationed outside of the arc-flash boundary.

Installation and operation of the CBS ArcSafe® RRS-3 PowIVac is quick and simple and does not require any modifications to the existing equipment. PowIVac Type PV style circuit breakers may typically be found in industrial plants, utility and co-generation facilities, and commercial and residential buildings. By automating the racking procedure, the CBS ArcSafe® RRS-3 PowIVac reduces operator fatigue and increases operator safety.

When accompanied by a CBS ArcSafe remote switch operator (RSO) control unit, the RRS-3 reduces the need for arc-flash suits and eliminates all hazardous manual contact with gear during operation from up to 300 feet away. The system is lightweight and portable for hard-to-access areas.

All CBS ArcSafe products are manufactured in the U.S. at our manufacturing facility in Denton, Texas. For more information, visit CBSArcSafe.com or call 877-4-SAFETY.

About CBS ArcSafe®

CBS ArcSafe offers the electrical industry’s largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear that do not require modification to existing equipment for operation. All our equipment is manufactured in the U.S. at our Denton, Texas, manufacturing facility. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers.
