

DESCRIPTION

The CBS ArcSafe® RSA-174F remote switch actuator is designed to remotely close and open all frame sizes of the ABB/Sace Tmax T7 low-voltage molded case circuit breaker. The RSA-174F allows operators to actuate the molded case circuit breaker from a safe distance stationed outside the arc-flash perimeter without having to make any modifications to the breaker. Capable of operation from up to 300 feet away, this custom-built actuator can reduce or eliminate the need for bulky and expensive arc-flash hazard suits. Designed, manufactured, and assembled in the U.S., this actuator is lightweight and portable, allowing for simple installation and operation in even the hardest-to-access areas.
