CBS ArcSafe Receives ISO 9001:2008 Certification

Denton, TX, Jan. 5, 2016 – CBS ArcSafe, Inc. announced that it recently achieved ISO 9001:2008 certification from UK-based QAS International. CBS ArcSafe received the certification for its research, design, engineering, and provision of arc-flash mitigation safety equipment.

"This certification affirms the commitment that the team at CBS ArcSafe has on behalf of its customers," says Ashley McWhorter, president of CBS ArcSafe, Inc. "We're very proud of the level of professionalism in our people and procedures that helped us reach this goal."

ISO 9001:2008 certification requires an organization to demonstrate its ability to consistently provide products that meet customer and applicable statutory and regulatory requirements. Among the principles addressed in ISO 9001:2008 certification are customer focus, leadership, continual improvement, and mutually beneficial supplier relationships.

About CBS ArcSafe®

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear that do not require modification to existing equipment for operation. All our equipment is manufactured in the U.S. at our Denton, Texas, manufacturing facility. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at CBSArcSafe.com, or call toll-free at 877-4-SAFETY.
